

STUDENT REVIEWS FOR DR. CLAUDIA MIKAIL'S COURSES AT UCLA EXTENSION

CLINICAL GENETICS: MEDICAL AND PUBLIC HEALTH PERSPECTIVES

"Dr. Mikail is fantastic."

"One of the best professors that I have had."

"I enjoyed the fact that Dr. Mikail introduced basic material (basic biology/genomics) in the class and used the discussion to delve into issues relative to public health. It really became a well-rounded and extremely informative module and I enjoyed it very much."

"You could feel her excitement and passion for the subject matter."

"Very challenging, exciting course. Used several methods in which to learn the material from. Great communication and challenges."

"Good job making a tough subject interesting and relevant."

PEDIATRIC GENETICS: TERATOLOGY, DYSMORPHOLOGY, AND DEVELOPMENTAL DELAY

"Courses taught by this teacher have always been very informative."

"The course content was challenging and thought provoking. I learned a lot, and have a lot more questions I hope to find answers to in future courses with Dr. Mikail."

"I work in the public side of pediatric genetics and am able to apply what I learned to the responsibility performed in my field."

"This course challenged. I have gained valuable knowledge regarding pediatric genetics. In addition, this course has enhanced my research and critical thinking skills in general."

"Being able to read and respond to other classmates post made it possible to share and learn about new ideas from others."

"The learning environment was engaging and welcoming. I enjoyed the opportunity to learn with my fellow classmates and share ideas and insights. Dr. Mikail's weekly feedback enhanced the learning environment by challenging us to ask more questions and provided additional resources for our further study."

"I thoroughly enjoyed this online course and would not change anything. Genetics can be scary going into it, but Dr. Mikail's course made it fun, interesting, and gave me a new perspective to genetics that I did not have prior to starting this course."

"Overall, this course met all of my expectations. The pace and organization was just right. The course materials were current and relevant. Dr. Mikail engaged in our discussions and provided weekly feedback. My peers were engaged in the weekly discussions and I felt we had a great community built on mutual respect with a focus on learning."

"For this course being the second one of the certificate, I think it was enjoyable in a very educational way. Being able to enjoy the class helps retain information and therefore become more passionate about it."

INTRODUCTION TO CLINICAL MEDICINE

"This class was perfectly organized, planned out, and interactive with both classmates and the professor. I very much enjoyed it and took home many new skills."

"Thank you for being an amazing instructor!"

"I enjoyed the valuable information offered in the course and the instructor was very supportive and encouraging!"

INTRODUCTION TO PEDIATRICS AND CHILD HEALTH

"This course was perfectly balanced. I appreciated that the following week's assignments were available a day earlier so in case there was a busy week coming up, I was able to get a head start. Great course! I wish there were more online courses of this nature or even sequel courses."

"I really thought the course was structured well."

"Wouldn't change anything."

"I honestly enjoyed every aspect of the course. I think that for an introductory class it definitely met more than I expected. The book is very informative and contains key information in very essential areas of pediatrics that you can always revisit."

"No improvements necessary from my perspective. Fantastic class!"

"The course was well done."

SEMINAR: MEDICAL EDUCATION IN THE UNITED STATES

"I learned as a medical student how to match in a residency in the USA and how to train to become a doctor. It was a very good lecture. Thanks a lot!"

SEMINAR: BECOMING A DOCTOR: THE MEDICAL SCHOOL APPLICATION PROCESS

"AMAZING COURSE! I LOVED IT!"
